

YACHT CLEAN

CARBON STIK LIGHTWEIGHT, ADJUSTABLE-TELESCOPING

YC.307 (48"-74") • 122-188 cm

YC.308 (70"-116") • 180-300 cm

Material: The pole is made of high-quality carbon fiber, ensuring strength, durability, and lightweight properties. The surface features a matte finish for a sleek and professional look.

Grip: Equipped with a PVC anti-slip handle, designed to provide a firm and comfortable grip, even in wet or challenging conditions.

Adjustability: The pole is telescopically adjustable, allowing for easy length modification to suit different needs. The adjustment system is secured with a stainless steel push-button mechanism, ensuring a reliable and safe locking system.
